MYinterpreting.net

INTERPRETER OWNED. INTERPRETER RUN. TECHNOLOGY DRIVEN.

Capability Statement

Small company. Big ideas. Accessible communication.

MyInterpreting.net is an interpreter-owned and interpreter-run network connecting organizations with professional American Sign Language (ASL) interpreters. We combine community-centered service with straightforward online scheduling, virtual interpreting, and on-site coordination to support effective communication with Deaf and Hard of Hearing individuals.

CORE CAPABILITIES

On-site ASL interpreting

Scheduled interpreting across Maryland, Washington, DC, and Northern Virginia for healthcare encounters, school meetings, workplace conversations, government programs, and community events.

Nationwide virtual interpreting

Remote ASL interpreting for appointments, meetings, and urgent communication needs. Virtual services can be requested around the clock, subject to interpreter availability.

Hospital coordination when every minute counts

Live GPS tracking lets hospitals follow their assigned on-site interpreter's travel progress. While the interpreter is en route, we provide a virtual interpreter to support communication until arrival.

Simple online scheduling

Approved customer accounts can select a service and job type, describe the assignment, and request an interpreter online. Organizations can contact our team before creating an account.

WHAT SETS US APART

- **Interpreter-led approach:** professional judgment, accessible communication, and community values guide our service.
- **Practical technology:** online requests, video interpreting, and real-time travel updates help organizations coordinate service.
- **Flexible delivery:** regional on-site support and nationwide virtual access meet different assignment needs.

SERVICE COVERAGE

On-site
Maryland
Washington, DC
Northern Virginia
